Cater Plastic Packaging

Vision

To be our customer first choice when selecting a world class manufacturer and supplier of plastic packaging products delivered with Creativity, Imagination and Ingenuity.

Mission

To embrace a propensity for satisfying the needs and expectations of our customers by supplying on-time, high quality products. with competitive pricing and long term consistent value

Overview

Welcome to Tirupati Polyplast

An ambitious Company with a Wealth of Experience, Driven by a Desire and enthusiasm to deliver flexible and Responsible solution for Plastic Packaging.

Privately owned and Independent. Tirupati Polyplast is not part of a huge cartel of packaging providers, Who can often have differing company cultures and priorities. Big enough to deliver. Yet small enough to care. We continue to provide a unified service that confidently meets the demand of all type of customer from large global brands to small Independent

Our modern site has been installed with latest blow moulding, Injection moulding with capacity comfortability maintain by large accessible open factory units. Used for both manufacturing & storage.

We can produce a range of high quality products, from versatile packaging in HDPE to glass like containers in PET. In addition to manufacturing, We also offers packaging solutions for bulk products from 7.5L to 210L

THE ENVIRONMENTAL ALTERNATIVE TO GLASS

Because plastics are soft and boast lower melting points, PET Bottles require less energy to manufacture than glass. Easier to recycle, PET can also be made in PCR in levels up to 100%.
